

## **HYGIENE NOTICE**

If you have signs of illness of any sort please wait until you are completely well before visiting.

Until the incidence of Covid19 infection locally returns to a negligible level we are limiting access to two vaccinated people from the same household at a time and there is obligatory hand-sanitising gel provided upon entering the shop.

The underground studio will be available for private guitar testing and can be booked.

If you are bringing an instrument in for repairs please read the REPAIRS section first and its imperative that the sound hole interior as well as all the outer surfaces and the case (inside and out) are vacuumed free of dust.

Unfortunately the shop is not suitable for young children or pets.

Please phone ahead if you have any concerns.

Thanks for your consideration.
